

# HOW TO

## Make a Year in Review Short Story Album

To start this project, purchase a Short Story workshop kit and choose one year to document. Then pull out the workbook and walk through Step 1, answering all five questions for the year you chose and jotting down the major events, memorable moments, and everyday themes you remember. Now it's time to choose your photos. Use the information and details from your workbook with the list below to help you select and print up to 50 photos for your album.

- 1 personality photo for each person and pet in your home
- 1-2 group photos of family or friends
- 1 photo depicting each season of the year (4)
- 1-2 photo from each holiday you celebrate (7-12)
- 1-2 photos for each major event and vacation (15-20)
- 10-12 great everyday life photos

Once you have your printed photos, follow along with the additional steps in the workbook and trust the process. When you're done, you'll have an entire year beautifully documented and ready to display and share.
